¹ The gearing in Falk drives factory filled with GMax 6000 lubricant shall be warranted against tooth failure due to excessive wear or surface distress. This warranty is limited to surface hardened gearing only and is fully dependent upon the proper maintenance and care of the GMax lubricant. This includes, but is not limited to documentation of regular and customary oil sampling to ensure performance of the lubricant. This warranty does not cover bearing, seals, through hardened gearing, or other parts of the gear drive.

100-003 Rexnord Extended Warranty dated
Effective 07/01/13. Supersedes document
dated 01/01/11 and all other documents.
