

MODEL V2500 PMA PARTS & DER REPAIRS

Rexnord® Aerospace Seal products are designed to provide optimum leak protection in many different operating environments and are found in:

- Gas turbine engines
- Auxiliary power units
- Gearboxes and accessories
- Hydraulic power systems
- Environmental control systems
- Rockets and weapon systems
- Pumps and compressors
- Industrial turbines
- Many other rotating components

Rexnord PSI® and Shafer® Bearing products cover a diverse selection of special and standard configuration bearings bushings, rod ends, trunnions, links and many unique designs. These are used in:

- Landing gear
- Flight controls
- Actuation components
- Airframe, engine and nacelle

Rexnord engineers design optimum solutions for some of the most complex operating parameters. Our designs are intended to bring significant customer value, long life and product life services.
